7-6366 (P7924)

This jig set easily assembled and secured to your screen table will hold screen frame in place while you install the fabric.

The set contains:

- 1—84" Jig Bar (Side Bar)
- 1 – 60" Jig Bar (Floating Bar)
- 1—42" Jig Bar (End Bar)
- 1 – 36" Jig Bar (Floating Bar)
- 1—24" Jig Bar (Floating Bar)
- 12—3/4" Jig Clips

ASSEMBLY INSTRUCTIONS

- We recommend 3/4" plywood for your table.

Position the 84" jig bar 3/8" in from the side edge and bottom end of the table (see **#1** & **#2**)

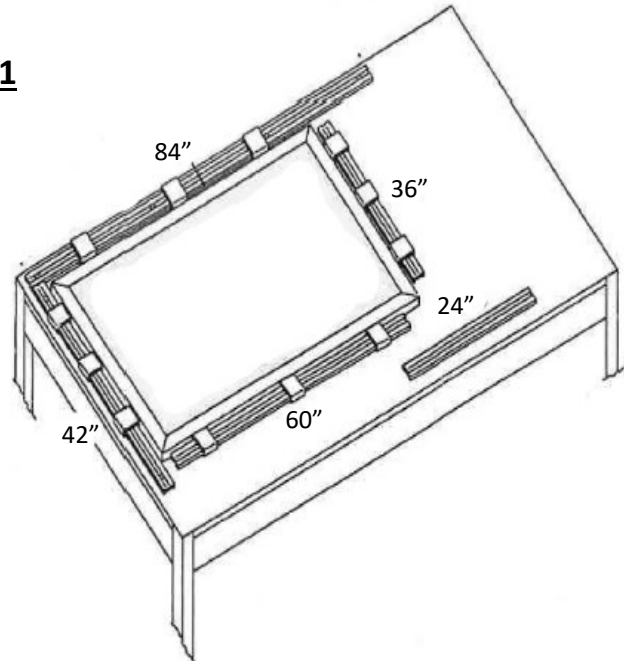

Position the 42" jig bar 3/8" in from the bottom end of the table maintaining 1/4" clear against the 84" jig bar (see **#1** & **#2**).

Using a carpenters square, align the 42" bar to form a 90 degree angle where this meets the 84" jig bar.

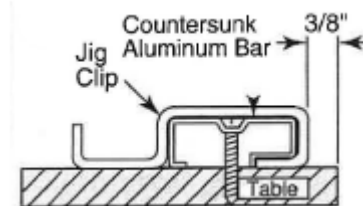

Mark the table where the holes in both lengths of the jig bars are located, drill holes and screw the jig bar to table.

Slide the jig bar clips onto the stationary bars from the open end. The remaining jig bar clips can be placed over the floating jig bars to hold the screen frame in place.

#1

#2

7-6367— 3/4" Jig Clip

Jig Clip

7-6368— Jig Clips for 1" wide frame (order separately).
